*All terms expire in August

The Year in Review

Your Cooperative enjoyed another good year of operations in 2014. For us, this means providing you and your neighbors with reliable, affordable electricity.

Reliable: Our electric system and our service facilities at Blanchard and Portland are in good condition. We have a forward-looking work plan in place, to make sure the system is updated regularly and upgraded where needs arise.

Affordable: Our financial reports are strong, showing that no rate increase is needed to meet our expenses. Our rates are very competitive with those charged by other mid-Michigan utilities, and we work very hard to get the most value from your energy dollars.

Some of our specific accomplishments in 2014 include:

- The Board of Directors authorized a total capital credit retirement of \$1.4 million, the second largest in our history to that point. Through 2014, the Cooperative has returned \$11.9 million of equity investment to our member-owners.

- Our Community Solar Garden, dedicated on Earth Day 2014, is performing better than expected, and about two-thirds of the panels are leased to members, who see the benefit as a monthly credit on their energy bill.
- Member-owners took a direct role in governing their co-op at the Annual Meeting in August, with a unanimous vote to opt out of the state's \$25 outage credit. This vote recognized that cooperatives are different, and the money to pay such a credit to one group of members can only come from other members, rather than from distant stockholders.
- We completed a Member Survey, with members rating us highly on key factors such as reliable electric service, prompt outage response, and quality customer service.
- Your Board of Directors said goodbye to two longtime members in 2014, as first Laverne Hansen and then Carl Morton retired. While we lost a combined 65 years' of experience with Laverne and Carl, we gained new perspectives from Kimber Hansen and Luke Pohl, the directors who filled their seats.

- Following the Christmas 2013 ice storm and April 2014 wind storm, a cross-functional team developed an Emergency Response Plan to identify best practices to improve our ability to respond safely and quickly during severe circumstances. One of the needs we identified was a flex-track vehicle to reach swampy or off-road areas; we now have our own vehicle (shown above) and are putting it to good use.
- We completed a new cold storage building at Portland, the final piece of our 10-year facilities plan. Every building at Blanchard and Portland is now up to code, energy-efficient, and set up to help our employees serve you better.
- The Cooperative's subsidiary, Tri-Co Services, Inc., showed a profit and paid a dividend of \$200,000 to Tri-County Electric, which was returned to members as part of the capital credit retirement.
- As part of our commitment to our communities, the Tri-County Electric People Fund made 37 grants to families and 35 to organizations, totaling over \$96,000, in 2014. These grants helped with food, housing, medical, and transportation needs. Tri-County Electric also offered Touchstone Energy scholarships and classroom technology grants that benefited hundreds of students.

From your Board of Directors to our newest employees, we are constantly learning and looking for ways to improve the services we bring to you. The highlights we've listed here are just a few of the ways we did that in 2014

Ed Oplinger,
Board Chairman

Mark Kappler,
General Manager & CEO

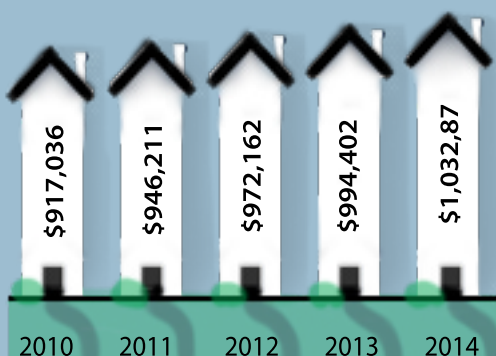

Balance Sheet

HomeWorks Tri-County Electric Cooperative

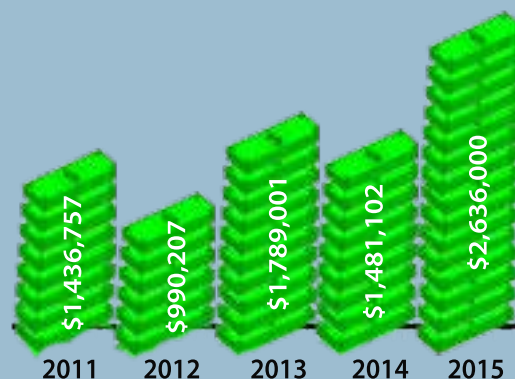

Complete, audited financial statements are maintained at the Portland office of HomeWorks Tri-County Electric Cooperative, Inc. The independent audit of 2014 financial statements was unqualified, and completed by the certified public accountant (CPA) firm of Eide Bailly, Fargo, ND.
